

Helping With Math

Adding 2-digit Numbers and 1-digit Numbers

GRADE 1

Adding 2-digit numbers is the same as adding 1-digit values, except that you have to go through the process of addition more than once. You have to start by adding the numbers in the ones column (rightmost) and then add the numbers in the tens column (leftmost).

Tens Column	Ones Column
2	0
+	8
<hr/>	
2	8

What do we do when the answer to the ones column is a 2-digit number, like the ones presented below? Let the camp leader show you how.

The numbers that you add together are called **ADDENDS**. Once added, the result is called the **SUM**.

$6 + 8$ is 14. But you cannot write 14 on the ones column since 14 belongs to the tens column. Therefore, you have to write 4 on the ones column and then carry over number 1 (which is = 10) on top of the tens column where it belongs.

After carrying it over to the tens column, **add the addends in the tens column** ($10 + 10$) = 20. But instead of writing 20, write the digit 2 which signifies 20, being in the tens column.

The equation also means:
 $(6 + 8 = 14)$ ones + (10) tens or $14 + 10$
= 24 (sum)

Tens Column	Ones Column
1	
1	6
+	8
<hr/>	
2	4

Add the addends and find the sum.

$$\begin{array}{r} 15 \\ + 5 \\ \hline 20 \end{array}$$

$$\begin{array}{r} 11 \\ + 6 \\ \hline 17 \end{array}$$

$$\begin{array}{r} 10 \\ + 4 \\ \hline \end{array}$$

$$\begin{array}{r} 18 \\ + 5 \\ \hline \end{array}$$

Combine the objects together and write the equation on the right.

$$\begin{array}{r} 10 \\ + 9 \\ \hline \end{array}$$

$$\begin{array}{r} + \\ \hline \end{array}$$

$$\begin{array}{r} + \\ \hline \end{array}$$

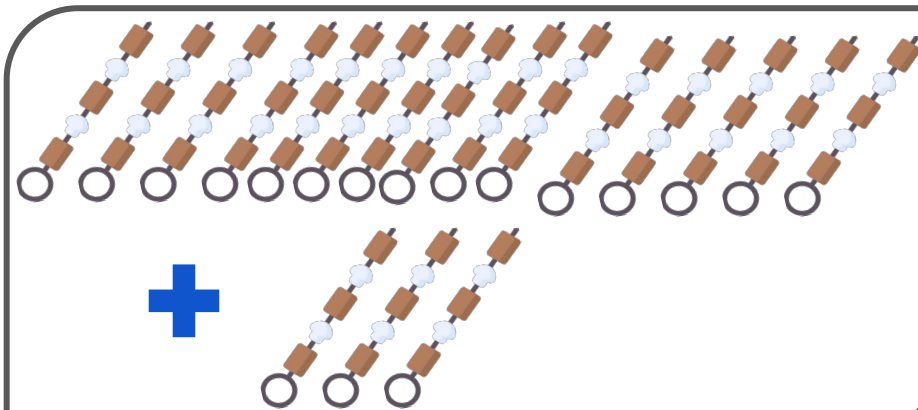

TABLE OF ACTIVITIES

1. Grill Time
2. Tree Logs
3. Campers' Tent
4. Read and Solve
5. Where to go?
6. Word Form
7. Scouts' Training
8. What's In the Bag?
9. Sleeping Bag
10. Hiking

GRILL TIME

How many food on sticks do the campers have? Write the solution and answer on the designated space on the right.

+

+

+

TREE LOGS

Determine if the given equations are correct. Cut and paste them to the corresponding true or false log.

True

False

$$14 + 4 = 18$$

$$43 + 2 = 45$$

$$67 + 5 = 72$$

$$35 + 5 = 30$$

$$29 + 9 = 38$$

$$58 + 8 = 58$$

CAMPERS' TENT

Find the missing number to make the equation true.

15

+

5

4

Adding 2-digit Numbers and 1-digit Numbers

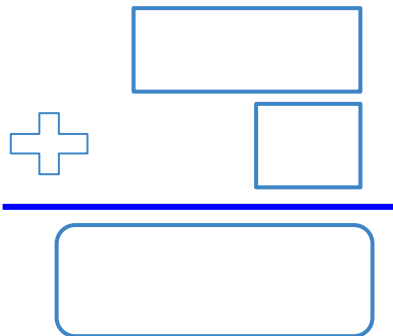

READ AND SOLVE

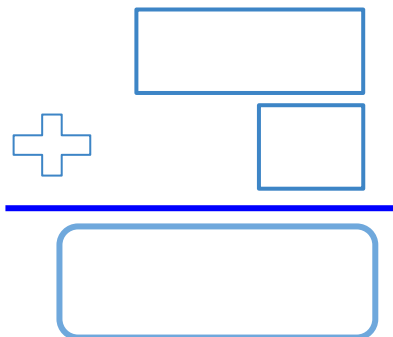

Read and solve the problems below.

Jazzy has 2 tents while Jared has 10 tents. How many tents do they have combined?

There are 8 boys and 6 girls in the tent. How many children are there altogether?

James has 7 sticks of marshmallows while Jack has 8. How many marshmallow sticks do they have in all?

WHERE TO GO?

Pick the right number beside the compass to complete the equation for the map.

44

60

12

+

=

20

WORD FORM

Solve the problems and write the answers in word format.

1	<hr/> <hr/> <hr/>
2	<hr/> <hr/> <hr/>
3	<hr/> <hr/> <hr/>

SCOUTS' TRAINING

Find the sum of each equation. The answers are found in the net.

$$\begin{array}{r} 15 \\ + \quad 9 \\ \hline \end{array}$$

$$\begin{array}{r} 48 \\ + \quad 5 \\ \hline \end{array}$$

$$\begin{array}{r} 25 \\ + \quad 9 \\ \hline \end{array}$$

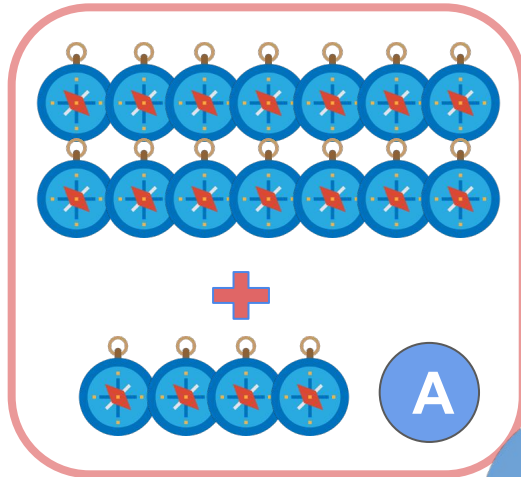

$$\begin{array}{r} 64 \\ + \quad 8 \\ \hline \end{array}$$

$$\begin{array}{r} 31 \\ + \quad 6 \\ \hline \end{array}$$

WHAT'S IN THE BAG?

Count the group of objects before the camper put them in the bag. Write the solution in each of the empty squares below.

A

B

C

D

SLEEPING BAG

Solve the problem and color them based on the color codes listed below.

35 = Green

41 = Pink

23 = Blue

60 = Purple

28 = Red

56 = Yellow

14 = Brown

HIKING

Help the scouts solve the problems for them to locate their destination.
