Naming Numbers Up To 1000

GRADE 2

Aside from the numbers 1 to 100, above the said values have names also. In Math, number name is simply defined as numbers spelled out into words.

Good day, class! I am Mrs. Smith, your Math teacher. The blocks you can see in the board are equal to 250. In words, 250 is spelled out as two hundred fifty.

BASE 10 BLOCKS

Set of four different types of blocks that when used together, one will see what a number looks like and understand its place value.

NUMBER NAME

- ❖ In Math, it is defined as numbers which have names or attributions in words
- ❖ The numbers are spelled using the English alphabet

NUMBER NAMING

One should write the numbers in as many ways as possible to make new connections into one's brain. Knowing how to write numbers in different ways can help one solve complex problems easier. Doing this can also nourish mathematical principles and logic that one memorised or understood.
