

GRADES

## Helping With Math

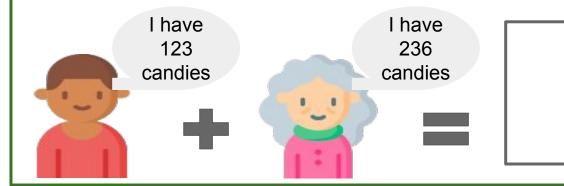

Suitable for students aged 6-8

pack This is suitable for learners aged 6 -8 years old or 2nd graders and 3rd graders (USA). The content covers files fact and relevant basic and advanced activities involving 3 digit addition.

HALLOWEEN THEME

How many candies will they have in total?

#### **ADDITION OF 3-DIGIT NUMBERS**

145

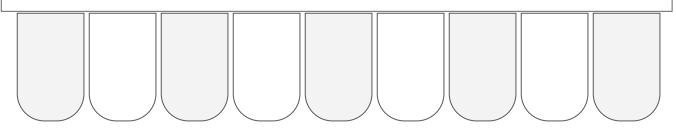

133

278

In addition of 3 digits, place the first addends above the second addends so that the ones, tens, and hundreds line up. Add the numbers in ones place, then add the tens place, and lastly add the numbers in the hundreds place. If the sum is over 9, you carry over the 1 to the next place

### APPLICATION OF ADDITION OF 3-DIGIT NUMBERS

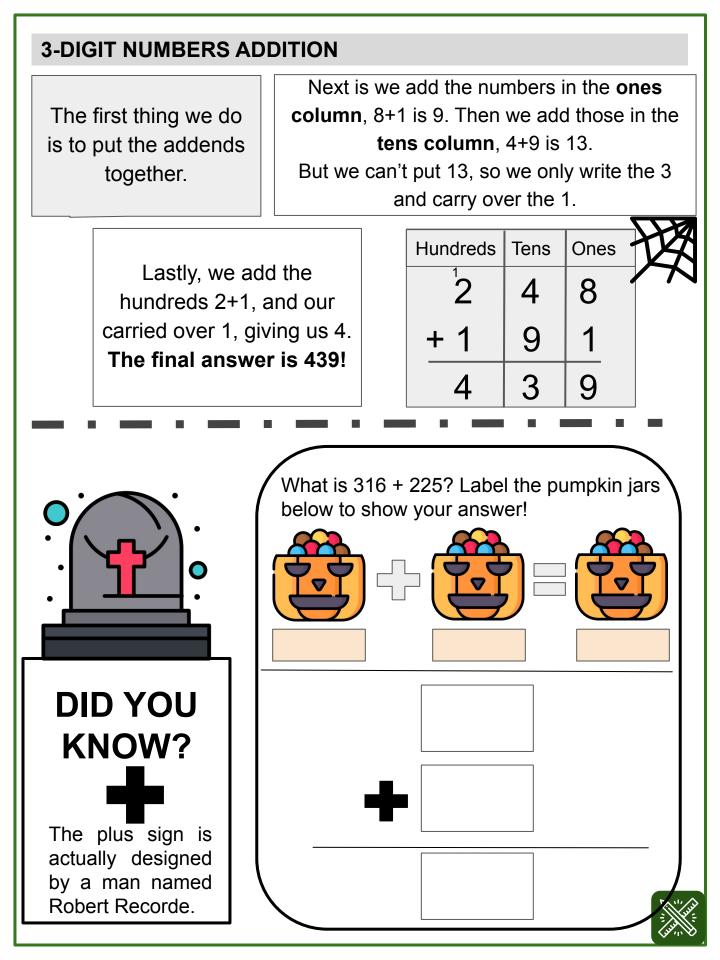

We use addition of 3-digit numbers in our daily life. When we go to the grocery store, some of the additions done are by 3-digit numbers. When we want to know how many people are in a large area, we also use addition of 3-digit numbers. When we want to know these numbers, we simply add them!

### How many candies are there in total?

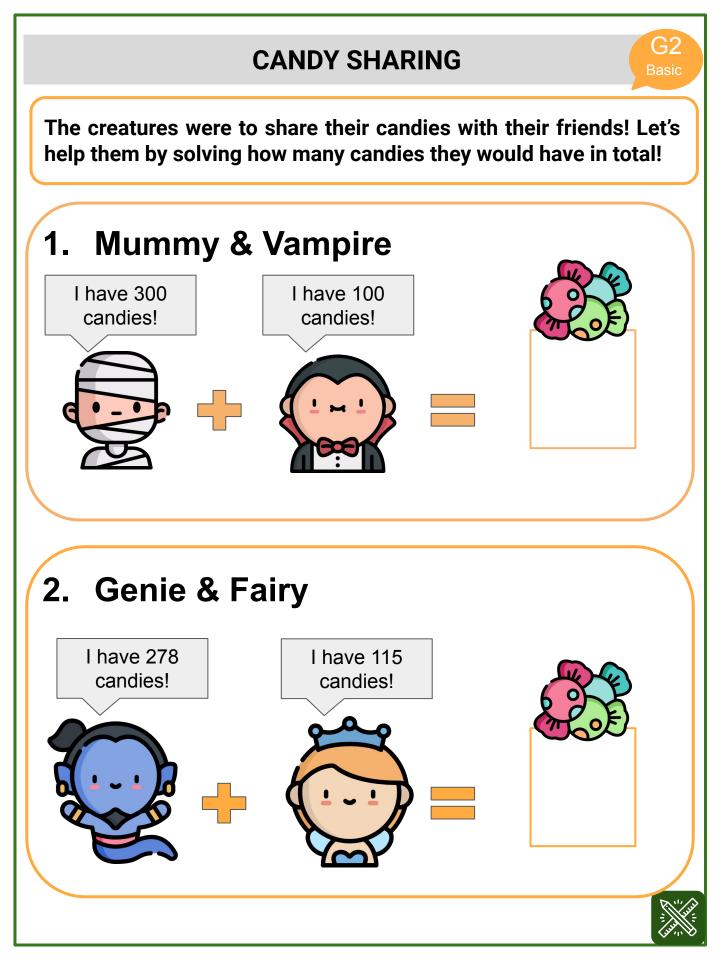

#### TABLE OF ACTIVITIES

	Age 6-7 (Basic) 2nd Grade		
1	Candy Sharing		
2	The Bat Cave		
3	Meet the Zombies!		
4	How Many do We Need?		
5	The Bowl		
Age 7-8 (Advanced) <u>3rd</u>			
6	What's Missing?		
7	To The Park!		
8	Welcome to Halloween Land		
9	The Secret of Candies		
10	You vs the Zombie!		

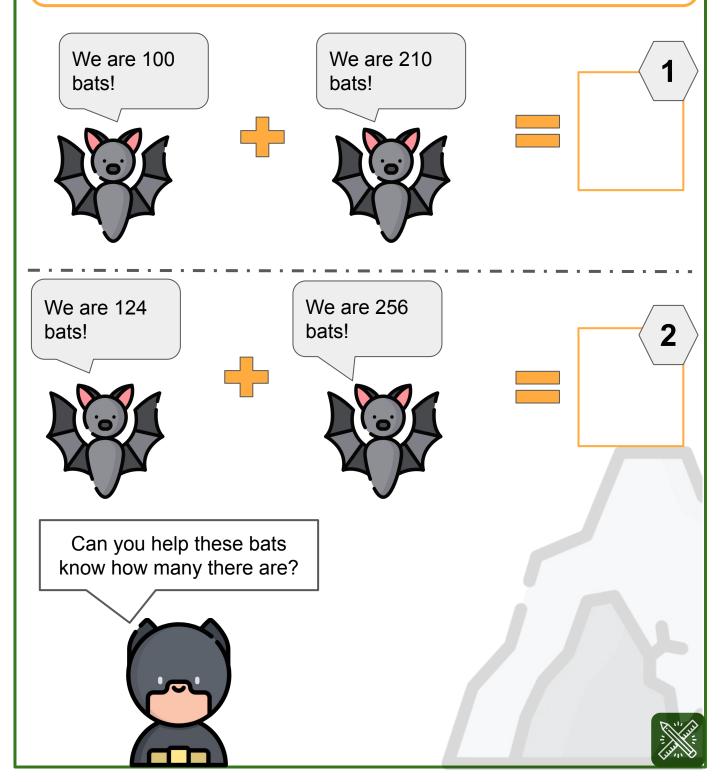

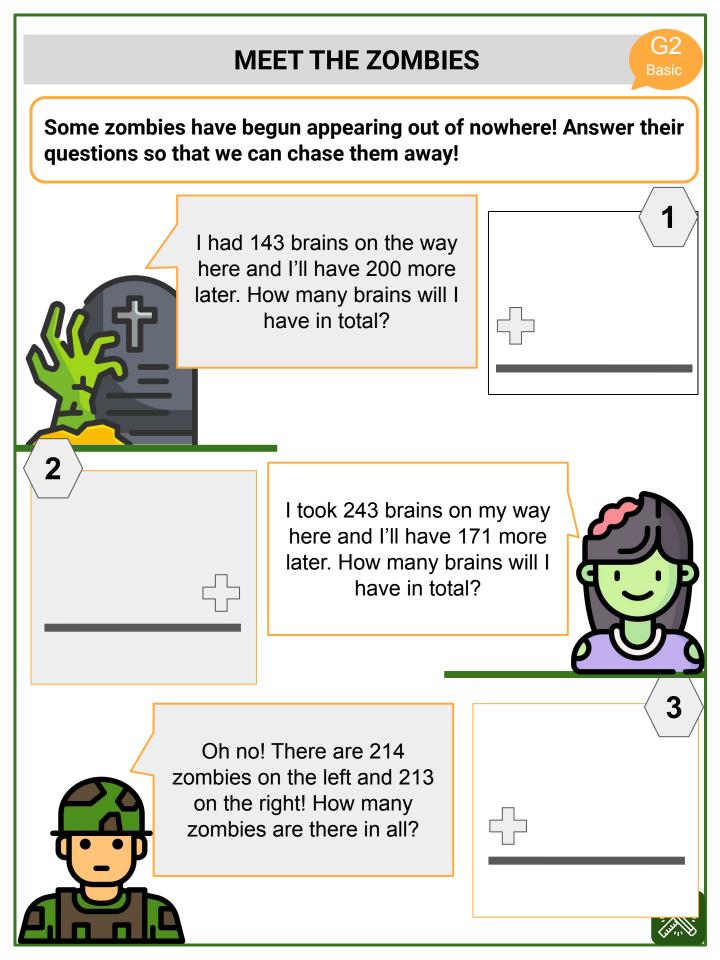

#### THE BAT CAVE

**G2** 

Welcome to the bat cave! The bats want to know how many of their kind are in the cave. Solve for the total number and write the answer on the boxes.

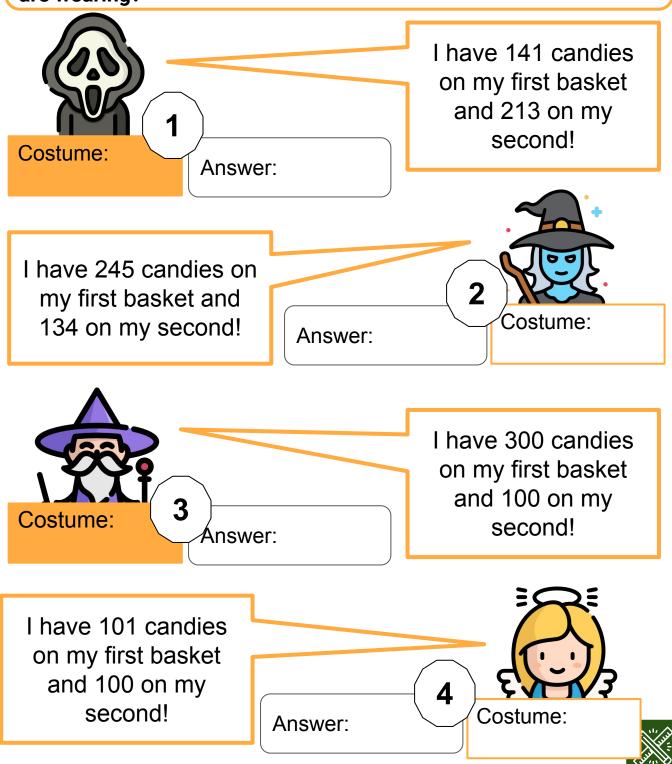

#### HOW MANY DO WE NEED?

**G2** 

These Trick or Treaters want to have a lot of candies! Can you help them know how many candies they need and what costume they are wearing?

#### THE BOWL

**G2** 

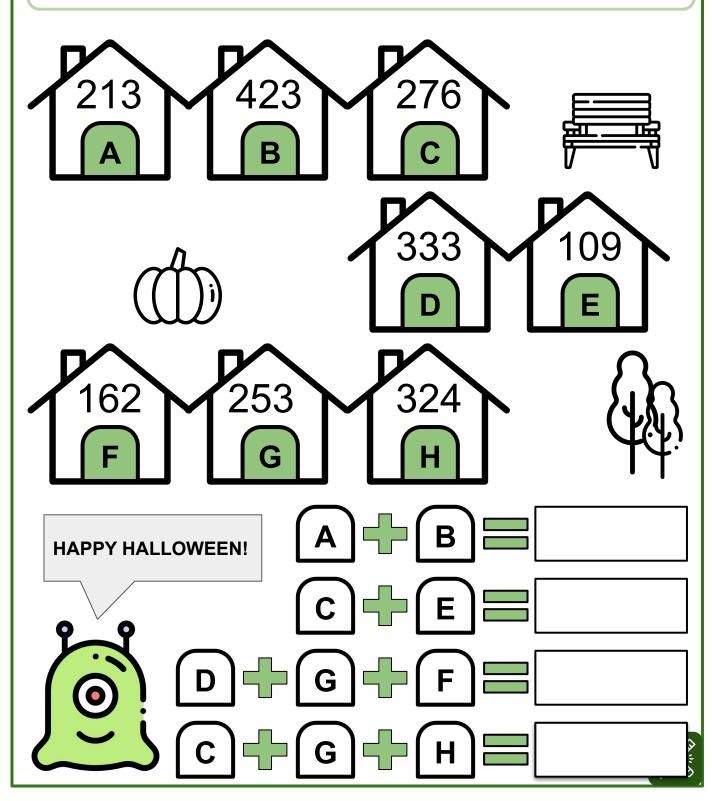

Oh no! The kids have mixed up their bowls of candies! Good thing, they still remember the color of jars they had. Combine the numbers of each color to help the kids out.

#### WHAT'S MISSING?

G3 Advanced

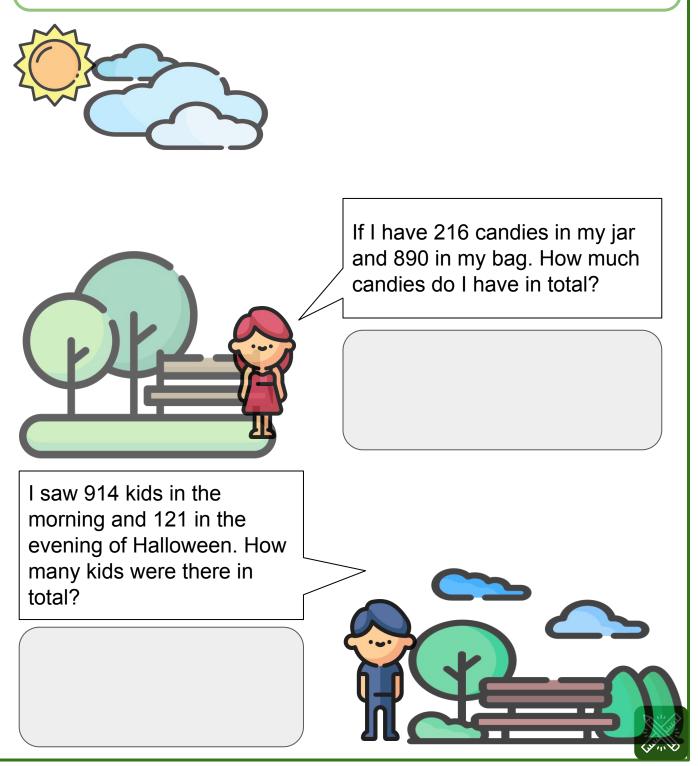

Bob the Blob has collected a lot of candies! Help him know the total of these candies based on the number posted on each house.

#### **TO THE PARK!**

G3 Advanced

Welcome to the park! During halloween, there are candies that could be collected here, only if you get the adults' questions correctly. Try them out yourself and collect their rewards.

#### WELCOME TO HALLOWEEN LAND

G3 Advanced

Welcome to Halloween Land, where everyday is Halloween. That means candies and goodies everyday! But before you enter, you need to answer these questions first. Put a " $\checkmark$ " in the circle if the answer is correct and an "x" if the answer is wrong.

If I have 412 candies and you have 654 candies, we have 1066 candies in total.

If I have 312 candies and you have 654 candies, we have 866 candies in total.

If I have 242 candies and you have 654 candies, we have 826 candies in total.

If I have 312 candies and you have 614 candies, we have 926 candies in total.

#### THE SECRET OF CANDIES

At the end of the day, kids in this neighborhood donate their goodies to the community center. Help them know how much candies they will give to the kids in the center.

1. Bob has gathered 146 candies on his first visit on the neighbourhood, while his second visit gave him 324 candies How many candies does Bob has in total?

Addition sentence:

Solution and answer:

2. After Halloween, Samara counted her candy jars. Her first jar has 457 candies and her second jar has 512 candies. How many candies does she have in total?

Addition sentence:

Solution and answer:

# **YOU VS THE ZOMBIES** Oh no! The zombies have started to overrun the city! To help plan out your escape, solve the questions below. Outside the house there are 312 zombies and at the back are 1. 243 zombies. How many zombies are there in total? Addition sentence: Solution and answer: 2. While outside, you've encountered a group of 713 zombies. As you run, you saw another group of 167 zombies. How many zombies did you see in total?

Addition sentence:

Solution and answer:
